

★ Scottish Socialist Party

FOR AN INDEPENDENT SOCIALIST SCOTLAND

TORIES OUT!

NO TRUST IN LABOUR'S CONTINUITY TORIES!

Build a genuine socialist alternative – an independent voice of the working class and young people – *the Scottish Socialist Party*

SIR KEIR STARMER'S LABOUR PARTY — and their powerless junior Scottish branch — have betrayed the hopes of working-class people.

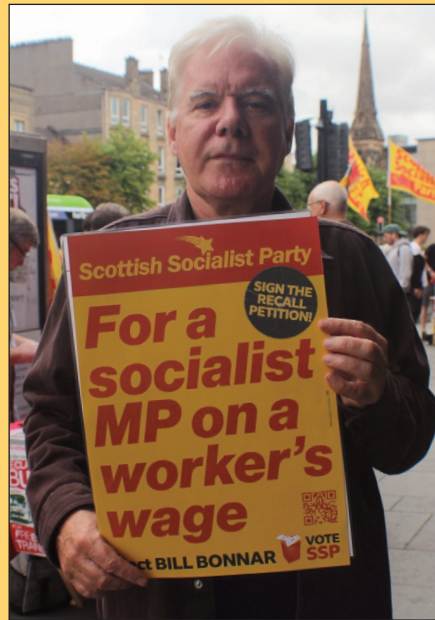

They just promise more of the same rotten poverty, inequality, and exploitation for profit that we've suffered under 13 years of Tory misrule.

LABOUR LEADERS have said they will:

- **KEEP** the vicious Tory 2-child benefit cap, **ROBBING** food off 80,000 Scottish kids
- **KEEP** the Tory bedroom tax — **CUTTING** Housing Benefits and Universal Credit to 100,000 Scots
- **CONTINUE** Tory spending-cuts to jobs and services — **KEEP** Tory anti-union and anti-protest laws — **CONTINUE** plundering and **POLLUTING** for the profit of Big Oil in the North Sea.

Labour are the Continuity Tories!
Reject Starmer's New Tories — *we deserve better!*

Demand radical change from years of poverty, inequality, and injustice — for democratic public ownership, not privatised profiteering — for people, not profit.

Elect a socialist MP on a worker's wage – reject the careerists on £87,000!

Vote BILL BONNAR

Scottish Socialist Party – Free Public Transport

REJECT TORIES OF ALL COLOURS!

THE SSP STANDS UP FOR

people, not profit — for socialist change, to transfer wealth and power away from the rich to the rest of us!

For a genuine socialist alternative — fighting poverty, inequality and pollution:

- Public ownership, not privatised profiteering
- Free public transport for all, on publicly owned buses, trains, subways, and ferries — combat poverty, social isolation and car pollution
- Scrap the vicious Tory bedroom tax and two-child benefit cap — which Labour will keep
- £15/hr minimum wage for all aged 16+ — equal pay for women
- Public ownership of all forms of energy — abolish profiteering, fuel poverty, and pollution — provide clean, green affordable energy and 70,000 new, green jobs in renewables
- Retrofit every home free of charge — insulate, draughtproof, fit eco-boilers and fast broadband — slash

SSP: the Scottish Socialists stand for free public transport, to tackle poverty, inequality, social isolation and car pollution

heating bills, cut emissions, create thousands of jobs

- Reverse all cuts to funding for jobs and public services by Westminster and Holyrood — win back our stolen £millions! — scrap the unfair Council Tax: tax the rich to double the funds
- Scrap Trident nuclear weapons — save over

£200billion — invest in our NHS, housing, education, public transport, not weapons and wars

- For an independent socialist Scotland
- Elect a socialist MP living on the average Scottish worker's wage — not the £87,000 grabbed by all the careerist politicians
